Ola I Ka Wai was derived from the Hawaiian proverb, *Ola i ka wai a ka ‘ōpua*, which means “There is life in the water from the clouds.” Each raindrop is a blessing of nourishment to the life of the land and its people. Collectively, these sustaining waters can transform a community. Similarly, **Ola I Ka Wai**, Waimānalo Health Center’s Capital Campaign, offers an opportunity to invigorate new life and uplift the community through a gathering of blessings.

\$13 Million
Capital Campaign

WAIMĀNALO
HEALTH CENTER

Waimānalo Health Center

Established in 1989, Waimānalo Health Center (WHC) is a nonprofit, tax-exempt charitable organization. It became a federally qualified health center in 1994.

Waimānalo Health Center is committed to providing the highest level of primary and preventive health services, with special attention to the needs of Native Hawaiians and the medically underserved, and improving the health and wellness of individuals and their ‘ohana regardless of their ability to pay.

The Waimānalo Health Center utilizes a Patient-Centered Health Care Home approach to providing comprehensive care that is personalized and integrated. With a special emphasis on ‘ohana, WHC tailors its health services to each patient’s family dynamic and culture.

Waimānalo Health Center services:

- Medical care
 - Dental care
 - Vision care
 - Behavioral health services
- Nutrition services
 - Care coordination
 - Outreach and eligibility services
 - Youth services

WHC’s service area focuses on the northeastern coast of O’ahu, known as Ko’olaupoko, from Makapu’u Point to Kualoa State Park. The area includes the towns of Waimānalo, Kailua, Kāne’ohe, Kahalu’u, He’eia, Waiāhole, Waikāne, Hakipu’u and Kualoa. The estimated population of this area is nearly 125,000.

Although WHC serves patients from all areas of the island, community-based efforts focus on the large Native Hawaiian population of Waimānalo. Native Hawaiian or part-Hawaiian residents in this area represent approximately 65% of the population of Waimānalo, which makes this community one of the most concentrated areas of Hawaiians in the state.

Consisting of timeworn trailers retrofitted to provide medical services, existing facilities are inefficiently configured and inadequately sized based on standards for patient care. Costs for repair and maintenance of these facilities continue to escalate, which adversely impacts the delivery of much-needed services.

To accommodate anticipated population growth and development of this area, expanded clinic facilities are necessary.

Project Cost:

The Ola I Ka Wai Capital Campaign seeks \$13 million to construct a new health center facility to expand services for individuals and families in Waimānalo, Kāne’ohe, Kailua, other Windward communities and surrounding areas.
